

# EVERYTHING HILL DILLOS THROW IN A TRASH CAN GETS TAKEN TO A LANDFILL

Brinkley: Hello class! Today we are going to learn about our waste or trash. Everything Hill Dillos throw in a trash can gets taken to a landfill. Once there it can create a gas that pollutes the air.

When trash tries to rot while  
buried **DEEP DOWN** in a landfill  
it **pollutes the air**

(Sarah raises her hand)

Sarah: When trash tries to rot while buried deep down in a landfill, pollutes the air.

# WHAT SHOULD WE DO INSTEAD?

**ReUSE**  
**our trash**

**Use less**  
**things!!**

Brinkely: What should we do with our trash IF we shouldn't leave it in a landfill?

(JJ raises his hand)

JJ: We should reuse our paper that's only been written on one side, and others items.

(Henry raises his hand)

Henry: We should use less things. We don't need as much stuff as we have or use.

Brinkley: What if reusing something is not an option? For instance, WE HAD TO use both sides of this paper in class?

Aiden: Recycle it!

Brinkley: What about this pizza that's left over?

Harper: Only make or order what you need, and compost the rest.

Brinkley: What about the paper towels we use to dry our hands?

JJ: Compost them!

Brinkley: What about the used tissues?

Taylor: only use what you need and compost the rest

Brinkley: And then there are those items that your parents gave you that you may have avoided if you had a choice. What about this plastic bottle someone's parent sent them to school with?

Henry: Recycle it, but use reusable water bottles instead!

# REVIEW: WHAT SHOULD WE DO WITH OUR WASTE

INSTEAD?

**ReUSE it!**

**Use Less!  
Reduce!**

**Compost**

**Recycle**

Brinkley: Let's review: What should we do with our waste?

CLASS ALL TOGETHER: 1st try to reuse it or choose not to use it. Reduce.

Brinkley: What if you can't do that?

CLASS ALL TOGETHER: Compost or recycle it!

Brinkley: Well, I guess you already know everything in today's lesson. Let's go pick up trash blowing around on the playground.

(Kids start to run off stage)

(Sarah stops every one in their tracks)

All students: Make every day Earth Day.

(Students run out of the room)
